# INDEX

ABERLE, S. B. D. The interrelation of a gonotropic hormone and vitamin A, 267.

Absorption, intestinal, autonomic nervous activity and, 283.

——, ——, K-Ca antagonism in, 318.

—— of water by skeletal muscle cells, 115.

ADOLPH, E. F. and M. J. GERBASI. Blood concentration under the influences of amytal and urethane, 35.

ALLEN, W. M. and R. K. MEYER. The quantitative separation of progestin from oestrin in extracts of the corpus luteum, 55.

Amytal, blood concentration under, 35.

Anemia, nutritional, of pregnancy, 449.

Anesthesia, blood concentration and, 35.

Arterial pressure, ventricular adjustment to, 329.

Autonomic nervous activity and intestinal absorption, 283.

—— systems, temporal and spatial summation in, 365.

Axons, properties of, 524.

BASAL metabolism, effect of dinitrophenol on, 432.

BEARD, H. H. and V. C. MYERS. Studies in the nutritional anemia of the rat. IX. Observations on the anemia of pregnancy, 449.

BELLIS, C. J. See RUNDQUIST and BELLIS, 670.

BENNETT, A. L. and E. U. STILL. A study of the relation of pancreatic duct pressure to the rate of blood flow through the pancreas, 454.

——. See STILL, BENNETT and SCOTT, 509.

BISHOP, G. H. Fiber groups in the optic nerve, 460.

——, P. HEINBECKER and J. L. O'LEARY. The function of the non-myelinated fibers of the dorsal roots, 647.

BLAIR, E. A. and J. ERLANGER. A comparison of the characteristics of axons through their individual electrical responses, 524.

——. See ERLANGER and BLAIR, 565.

Blood and tissue lactic acid after bicarbonate injection, 134.

—— cells, white, effect of digestion on, 309.

—— concentration and anesthesia, 35.

—— flow through pancreas, pancreatic duct pressure and, 454.

—— guanidine and parathyroid deficiency, 738.

—— vessel movement and tissue fluids, 95.

—— volume, circulating, portal system and, 423.

Body fluids, mechanical factors in exchange of, 95, 105.

BOHNING, A., K. JOCHIM and L. N. KATZ. The Thebesian vessels as a source of nourishment for the myocardium, 183.

BOHSTEDT, G. See LAMB, PHILLIPS, HART and BOHSTEDT, 350.

——. See PHILLIPS, LAMB, HART and BOHSTEDT, 356.

BORMAN, M. C. See HANEY, BORMAN and MEEK, 64.

BOYNTON, E. P. and M. HINES. On the question of threshold in stimulation of the motor cortex, 175.

Brain cortex, threshold stimulation of, 175.

BREWER, N. and F. A. RIES. A study of the secretory pressure of the liver, 247.

BRILL, A. K. See KRAMER, HARMAN and BRILL, 611.

BROOKS, C. M. Reflex activation of the sympathetic system in the spinal cat, 251.

Bryan, W. R., A. S. Minot and L. L. Chastain. Hyperguanidinemia associated with dehydration in normal and in parathyroidectomized dogs, 738.

Caesium, excretion of, by mouse, 314.

Cardiac and respiratory rhythms, comparison of, 204.
Carotid arterial anastomoses, vertebral-, 28.
Catalase, nerve, 404.
Catalysis, heavy metal, in smooth muscle contracture, 225.
Cerebrospinal fluid, rate of circulation of, 201.
—— ——, water transfer into, 170.
Chaikoff, I. L. and W. R. Lyons. Lactation in diabetes, 716.
Chastain, L. L. See Bryan, Minot and Chastain, 738.
Chronaxie in motor nerves, 721.
Circulation, coronary, 9, 597.
—— of cerebrospinal fluid, rate of, 201.
Cohen, M. B., J. A. Rudolph, P. Wasserman and J. M. Rogoff. The output of epinephrin from the adrenal glands during anaphylactic shock, 414.
Coller, F. A. See Maddock and Coller, 589.
Conditioned reflex, reward and response to pain in, 71.
Cooperman, N. R. See Mullin, Kleitman and Cooperman, 478.
Cori, C. F. See Schmitt and Cori, 339.
Coronary circulation, 9, 597.
Cotton, F. S. See Wiggers and Cotton, 9, 597.
Crandall, L. A., Jr See Roberts and Crandall, 423.
Creatinine, clearance of, and of various sugars, 16.
Cutting, W. C. See Hall, Field, Sahyun, Cutting and Tainter, 432.

Daggs, R. G. and A. G. Eaton. Metabolic studies in partially hypophysectomized dogs, 299.
Diabetes, lactation in, 716.
——, pancreatic, eye reactions in, 491.
Diet and renal weight, 571.
Digestion, effect of, on white blood cells, 309.
Dill, D. B. See Margaria, Edwards and Dill, 689.
Dinitrophenol, effect of, on basal metabolism, 432.
Dock, W. The rate of oxygen utilization by rat kidneys at different rates of urea excretion, 745.
Drugs, action of, on isolated intestinal transplants, 682.
——, effect of, on sleep, 478.

Eaton, A. G. See Daggs and Eaton, 299.
Edema, influence of blood vessel motion on, 105.
Edwards, H. T. See Margaria, Edwards and Dill, 689.
Electric current, high frequency, physiological effects of, 291.
Electrocardiograms of dogs with myocardial lesions, 64.
Energy requirement of pulmonary hyperventilation, 291.
Engle, E. T. Biological differences in response of the female macacus monkey to extracts of the anterior pituitary and of human pregnancy urine, 145.
Epinephrin, output of, during anaphylactic shock, 414.
Erection, mechanism of, 441.
Erlanger, J. and E. A. Blair. The configuration of axon and "simple" nerve action potentials, 565.
——. See Blair and Erlanger, 524.
Eye reactions in pancreatic diabetes, 491.
Eyster, J. A. E., F. Maresh and M. R. Krasno. The nature of the electrical field around the heart, 574.

Fetus, transmission of hypophyseal hormones to, 323.
Fibrin digests, fibrinogen and pseudoglobulin in, 475.
Field, J., 2nd. See Hall, Field, Sahyun, Cutting and Tainter, 432.

FITCH, J. B. See RIDDELL, HUGHES and FITCH, 676.
FLEXNER, L. B. A note on the rate of circulation of cerebrospinal fluid, 201.
——. The water of the cerebrospinal fluid. Variations of its rate of flow with variation of ventricular pressure, 170.
FLUHMANN, C. F. Comparative studies of gonad-stimulating hormones. III. Effects of prolonged injections in immature rats, 238.
Fluorine in nutrition of rat, 350, 356.
FORBES, A. See LAMBERT, SKINNER and FORBES, 721.
FOX, E. L. See LEE and FOX, 91.

GALL bladder, visualization of walls of, 46.
Gastric acidity, regulation of, 381.
GELLHORN, E. and D. NORTHUP. The influence of nervous stimulation on absorption from the intestine, 283.
—— and A. SKUPA. The K-Ca antagonism in regard to absorption from the intestine, 318.
GERBASI, M. J. See ADOLPH and GERBASI, 35.
GIANTURCO, C. and B. R. KIRKLIN. Visualization of the walls of the gall bladder, 46.
GILMAN, G. See WELKER, GILMAN and HEKTOEN, 475.
Gonad-stimulating hormones in immature rats, 238.
GOODMAN, L. and G. B. WISLOCKI. Note on the failure of anterior lobe extract to pass from mother to fetus in rabbits and cats, 323.
GRAHAM, C. F. and A. W. WRIGHT. The excretion of caesium by the albino mouse, 314.
Growth, influence of fluorine on, 350.

HALDI, J. Lactic acid in blood and tissues following intravenous injection of sodium bicarbonate, 134.
HALL, V. E., J. FIELD, 2ND, M. SAHYUN, W. C. CUTTING and M. L. TAINTER. Carbohydrate metabolism, respiration and circulation in animals with basal metabolism heightened by dinitrophenol, 432.
HANEY, H. F., M. C. BORMAN and W. J. MEEK. The relation between the position of experimental myocardial lesions in the dog and the changes in the RS-T segment of the electrocardiogram, 64.
HARMAN, M. T. See KRAMER, HARMAN and BRILL, 611.
HART, E. B. See LAMB, PHILLIPS, HART and BOHSTEDT, 350.
——. See PHILLIPS, LAMB, HART and BOHSTEDT, 356.
Heart, nature of electrical field around, 574.
Heat rigor, reversible, of elastic tissue, 125.
——, rôle of extremities in dissipation of, 589.
HEINBECKER, P. and J. O'LEARY. The mammalian vagus nerve—a functional and histological study, 623.
——. See BISHOP, HEINBECKER and O'LEARY, 647.
HEKTOEN, L. See WELKER, GILMAN and HEKTOEN, 475.
HENDERSON, V. E. and M. H. ROEPKE. On the mechanism of erection, 441.
HILL, F. C. See WILHELMJ, NEIGUS and HILL, 381.
HINES, M. See BOYNTON and HINES, 175.
HINSEY, J. C. and J. E. MARKEE. Studies on prolan-induced ovulation in midbrain and midbrain-hypophysectomized rabbits, 48.
Hormones and vitamins, interrelation of, 267.
——, gonad-stimulating, in immature rats, 238.
HUGHES, J. S. See RIDDELL, HUGHES and FITCH, 676.
Hypophyseal hormones, transmission of, to fetus, 323.
Hypophysectomized, partially, dogs, metabolism of, 299.
Hypophysis, relation of, to prolan-induced ovulation, 48.

INSULIN, atypical responses of rabbits to, 273.

Intestinal absorption, influence of nervous stimulation on, 283.
—— ——, K-Ca antagonism in, 318.
Intestine, origin of automaticity of, 682.

JAMES, W. T. The effect of reward on the response to painful experience in the conditioned reflex, 71.
Jochim, K. See Bohning, Jochim and Katz, 183.
Jones, E. See Lawrence, Stephens and Jones, 309.

KATZ, L. N. See Bohning, Jochim and Katz, 183.
Kirklin, B. R. See Gianturco and Kirklin, 46.
Kleitman, N. See Mullin, Kleitman and Cooperman, 478.
Kramer, M. M., M. T. Harman and A. K. Brill. Disturbances of reproduction and ovarian changes in the guinea pig in relation to vitamin C deficiency, 611.
Krasno, M. R. See Eyster, Maresh and Krasno, 574.

LACTATION in diabetes, 716.
Lactic acid in blood and tissues after bicarbonate injection, 134.
—— —— in medullated nerve, 339.
—— ——, oxygen debt and, in muscular contraction, 689.
Lamb, A. R., P. H. Phillips, E. B. Hart and G. Bohstedt. Studies on fluorine in the nutrition of the rat. I. Its influence on growth, 350.
——. See Phillips, Lamb, Hart and Bohstedt, 356.
Lambert, E. F., B. F. Skinner and A. Forbes. Some conditions affecting intensity and duration thresholds in motor nerve, with reference to chronaxie of subordination, 721.
Lawrence, J. S., D. J. Stephens and E. Jones. Studies in the normal human white blood cell picture. II. The effect of digestion on the white blood cells, 309.
Lee, M. O. and E. L. Fox. Surface area in a monkey, Macacus rhesus, 91.
Liver, secretory pressure of, 247.
Lyons, W. R. See Chaikoff and Lyons, 716.

MACKAY, E. M. Factors which determine renal weight. XV. The relations between the vitamin B (old terminology) and protein intakes, 571.
Maddock, W. G. and F. A. Coller. The rôle of the extremities in the dissipation of heat, 589.
Maresh, F. See Eyster, Maresh and Krasno, 574.
Margaria, R., H. T. Edwards and D. B. Dill. The possible mechanisms of contracting and paying the oxygen debt and the rôle of lactic acid in muscular contraction, 689.
Markee, J. E. See Hinsey and Markee, 48.
McIntyre, A. R. The effects upon the pH of dog serum and urine of the alpha and beta fractions of posterior lobe pituitary extract, 505.
Meek, W. J. See Haney, Borman and Meek, 64.
Metabolic activity of pancreas, 509.
Metabolism, basal, effect of dinitrophenol on, 432.
——, energy, of phosphorus-deficient cattle, 676.
—— of partially hypophysectomized dogs, 299.
——, respiratory, of active and inactive rats, 670.
Meyer, R. K. See Allen and Meyer, 55.
Minot, A. S. See Bryan, Minot and Chastain, 738.
Moldavsky, L. F. and M. B. Visscher. An analysis of the factors concerned in the automatic adjustment of the ventricle to increased load. I. A study of the importance of contraction rate and filling pressure in producing alterations in diastolic volume by variations in arterial pressure, 329.
Monaghan, B. See White and Monaghan, 16.
Monkey, surface area of, 91.

Monkey, uterine bleeding of, 416.
Mullin, F. J., N. Kleitman and N. R. Cooperman. Studies on the physiology of sleep. X. The effect of alcohol and caffein on motility and body temperature during sleep, 478.
Muscle cells, skeletal, absorption of water by, 115.
—— contracture, smooth, heavy metal catalysis in, 225.
——, isolated, effect of stretch on survival of, 156.
Muscular contraction, oxygen debt and lactic acid in, 689.
Myers, V. C. See Beard and Myers, 449.
Myocardial lesions, electrocardiograms of dogs with, 64.
Myocardium, Thebesian vessels in nourishment of, 183.

Nasset, E. S. and S. B. Peters. Physiological effects of high frequency current. IV. An estimate of the energy requirement of pulmonary hyperventilation, 291.
Neigus, I. See Wilhelmj, Neigus and Hill, 381.
Nerve axon potentials, configuration of, 565.
—— axons, characteristics of, 524.
—— catalase, 404.
—— fiber groups, optic, 460.
—— fibers, non-myelinated, of dorsal roots, 647.
——, frog, progressive degeneration of, 398.
——, mammalian vagus, 623.
——, medullated, lactic acid in, 339.
——, motor, intensity and duration thresholds in, 721.
—— stimulation, influence of, on intestinal absorption, 283.
Nerves, autonomic, temporal and spatial summation in, 365.
Nicoll, P. A. See Schmitt and Nicoll, 225.
Northup, D. See Gellhorn and Northup, 283.
Nutrition of rat, fluorine in, 350, 356.
Nutritional anemia of pregnancy, 449.
Nyboer, J. Comparison of changes in cardiac and respiratory rhythms effected in the dog by changes in physiological conditions, 204.

Oestrin, quantitative separation of progestin from, 55.
O'Leary, J. L. See Bishop, Heinbecker and O'Leary, 647.
——. See Heinbecker and O'Leary, 623.
Optic nerve fiber groups, 460.
Ovulation, prolan-induced, relation of hypophysis to, 48.
Oxygen debt and lactic acid in muscular contraction, 689.
—— use and urea excretion in rat, 745.

Pancreas, metabolic activity of, 509.
Pancreatic duct pressure and blood flow through pancreas, 454.
Parathyroid deficiency and guanidine of blood, 738.
Parker, G. H. The progressive degeneration of frog nerve, 398.
Peters, S. B. See Nasset and Peters, 291.
Phillips, P. H., A. R. Lamb, E. B. Hart and G. Bohstedt. Studies on fluorine in the nutrition of the rat. II. Its influence upon reproduction, 356.
——. See Lamb, Phillips, Hart and Bohstedt, 350.
Phosphate clearance in urine, 1.
Pitts, R. F. The excretion of urine in the dog. VII. Inorganic phosphate in relation to plasma phosphate level, 1.
Pituitary extract and pH of serum and urine, 505.
—— extracts in monkey, pregnancy urine and, 145.
——, relation of, to cyclical phenomena in rats, 80.
Plasma phosphate level and its clearance in urine, 1.
Portal system and circulating blood volume, 423.
Pregnancy, nutritional anemia of, 449.
——, pseudo-, relation to pituitary, 80.

Pregnancy urine and pituitary extracts in monkey, 145.
Progestin, quantitative separation of, from oestrin, 55.
Puestow, C. B. Studies on the origin of the automaticity of the intestine: The action of certain drugs on isolated intestinal transplants, 682.
Pulmonary hyperventilation, energy requirement of, 291.

Reflex activation of sympathetic system in spinal cat, 251.
——, conditioned, reward and response to pain in, 71.
Renal weight, 571.
Reproduction, influence of fluorine on, 356.
—— in guinea pig, vitamin C deficiency and, 611.
Respiratory metabolism of active and inactive rats, 670.
—— rhythms, cardiac and, comparison of, 204.
Richter, C. P. Cyclical phenomena produced in rats by section of the pituitary stalk and their possible relation to pseudo-pregnancy, 80.
Riddell, W. H., J. S. Hughes and J. B. Fitch. The energy metabolism of phosphorus-deficient dairy cattle, 676.
Ries, F. A. See Brewer and Ries, 247.
Rioch, D. McK. See Rosenblueth and Rioch, 365.
Roberts, G. M. and L. A. Crandall, Jr. The rôle of the portal system in the regulation of circulating blood volume, 423.
Roepke, M. H. See Henderson and Roepke, 441.
Rogoff, J. M. See Cohen, Rudolph, Wasserman and Rogoff, 414.
Rosenblueth, A. and D. McK. Rioch. Temporal and spatial summation in autonomic systems, 365.
Rudolph, J. A. See Cohen, Rudolph, Wasserman and Rogoff, 414.
Rundquist, E. A. and C. J. Bellis. Respiratory metabolism of active and inactive rats, 670.

Sahyun, M. See Hall, Field, Sahyun, Cutting and Tainter, 432.
Sawyer, M. E. MacK. Eye reactions in pancreatic diabetes, 491.
Schmitt, F. O. and C. F. Cori. Lactic acid formation in medullated nerve, 339.
—— and P. A. Nicoll. Heavy metal catalysis in smooth muscle contracture, 225.
—— and R. K. Skow. Nerve catalase, 404.
Scott, V. B. See Still, Bennett and Scott, 509.
Serum and urine pH, pituitary extract and, 505.
Shafer, G. D. Absorption of water by fatigued or otherwise impaired skeletal muscle cells in relation to heat rigor, 115.
——. The reversible heat shortening of elastic connective tissue, and an examination of the possible effects of certain factors on the heat shortening of connective tissues, 125.
Shock, anaphylactic, output of epinephrin during, 414.
Skinner, B. F. See Lambert, Skinner and Forbes, 721.
Skow, R. K. See Schmitt and Skow, 404.
Skupa, A. See Gellhorn and Skupa, 318.
Sleep, physiology of, 478.
Staff, H. See Talbert, Stinchfield and Staff, 488.
Stephens, D. J. See Lawrence, Stephens and Jones, 309.
Still, E. U., A. L. Bennett and V. B. Scott. A study of the metabolic activity of the pancreas, 509.
——. See Bennett and Still, 454.
Stinchfield, F. See Talbert, Stinchfield and Staff, 488.
Sugars, various, clearances of creatinine and of, 16.
Surface area in a monkey, 91.
Sweat, excretion of phosphorus and sulphur in, 488.
Swindle, P. F. Mechanical factors contributing to the exchange of fluids in the body:

V. Exchange due to movements of systemic arteries at cardiac systole and diastole, 95.
VI. Edema due to the failure of systemic arteries to loop at cardiac systole, 105.
Sympathetic system, reflex activation of, 251.

TAINTER, M. L. See HALL, FIELD, SAHYUN, CUTTING and TAINTER, 432.
TALBERT, G. A., F. STINCHFIELD and H. STAFF. Simultaneous study of the constituents of the sweat, urine and blood; also gastric acidity and other manifestations resulting from sweating. XI. Phosphorus and sulphur, 488.
Temperature of extremities and heat-dissipating mechanism, 589.
Thebesian vessels in nourishment of myocardium, 183.
Tissue, elastic, reversible heat rigor of, 125.

UREA excretion in rat, oxygen use and, 745.
Urethane, blood concentration under, 35.
Urine excretion in the dog, 1.
—— pH, serum and, pituitary extract and, 505.
Uterine bleeding of monkey, 416.

VAGUS nerve, mammalian, 623.
VAN WAGENEN, G. and S. ZUCKERMAN. Uterine bleeding of monkeys in relation to neural and vascular processes. II. Spinal-cord transection and the oestrin-level, 416.
Ventricular adjustment to internal pressure, 329.
Vertebral-carotid arterial anastomoses, 28.
VISSCHER, M. B. See MOLDAVSKY and VISSCHER, 329.
Vitamin C deficiency and reproduction in guinea pig, 611.
Vitamins, interrelation of hormones and, 267.

WASSERMAN, P. See COHEN, RUDOLPH, WASSERMAN and ROGOFF, 414.
Water absorption by skeletal muscle cells, 115.
WEISS, P. The influence of stretch on the length of survival of isolated muscles, 156.
WELKER, W. H., G. GILMAN and L. HEKTOEN. The presence of fibrinogen and pseudoglobulin in fibrin digests, 475.
WHITE, H. L. and B. MONAGHAN. A comparison of the clearances of creatinine and of various sugars, 16.
WIGGERS, C. J. and F. S. COTTON. Studies on the coronary circulation:
I. The coronary pressure pulses and their interpretation, 9.
II. The systolic and diastolic flow through the coronary vessels, 597.
WILHELMJ, C. M., I. NEIGUS and F. C. HILL. Studies on the regulation of gastric acidity. I. The influence of acid on the secretion of hydrochloric acid by fundic pouches and by the whole stomach, 381.
WINDER, C. V. Experimental consideration of vertebral artery-carotid artery anastomoses, 28.
WISLOCKI, G. B. See GOODMAN and WISLOCKI, 323.
WRIGHT, A. W. See GRAHAM and WRIGHT, 314.

ZECKWER, I. T. Some atypical responses of rabbits to insulin, 273.
ZUCKERMAN, S. See VAN WAGENEN and ZUCKERMAN, 416.

# THE AMERICAN JOURNAL OF PHYSIOLOGY

VOLUME CVI

BALTIMORE, MD.
1933

# CONTENTS

No. 1. October, 1933

The Excretion of Urine in the Dog. VII. Inorganic Phosphate in Relation to Plasma Phosphate Level. *Robert F. Pitts* ..... 1

Studies on the Coronary Circulation. I. The Coronary Pressure Pulses and Their Interpretation. *C. J. Wiggers and F. S. Cotton* ..... 9

A Comparison of the Clearances of Creatinine and of Various Sugars. *H. L. White and Betty Monaghan* ..... 16

Experimental Consideration of Vertebral Artery-Carotid Artery Anastomoses. *Claude V. Winder* ..... 28

Blood Concentration under the Influences of Amytal and Urethane. *E. F. Adolph and M. J. Gerbasi* ..... 35

Visualization of the Walls of the Gall Bladder. An Experimental Study. *Cesare Gianturco and B. R. Kirklin* ..... 46

Studies on Prolan-Induced Ovulation in Midbrain and Midbrain-Hypophysectomized Rabbits. *J. C. Hinsey and J. E. Markee* ..... 48

The Quantitative Separation of Progestin from Oestrin in Extracts of the Corpus Luteum. *Willard M. Allen and Roland K. Meyer* ..... 55

The Relation Between the Position of Experimental Myocardial Lesions in the Dog and the Changes in the Rs-T Segment of the Electrocardiogram. *Hance F. Haney, M. C. Borman and Walter J. Meek* ..... 64

The Effect of Reward on the Response to Painful Experience in the Conditioned Reflex. *W. T. James* ..... 71

Cyclical Phenomena Produced in Rats by Section of the Pituitary Stalk and their Possible Relation to Pseudo-Pregnancy. *Curt P. Richter* ..... 80

Surface Area in a Monkey, Macacus Rhesus. *Milton O. Lee and Edward L. Fox* ..... 91

Mechanical Factors Contributing to the Exchange of Fluids in the Body. V. Exchange due to Movements of Systemic Arteries at Cardiac Systole and Diastole. *P. F. Swindle* ..... 95

Mechanical Factors Contributing to the Exchange of Fluids in the Body. VI. Edema Due to the Failure of Systemic Arteries to Loop at Cardiac Systole. *P. F. Swindle* ..... 105

Absorption of Water by Fatigued or Otherwise Impaired Skeletal Muscle Cells in Relation to Heat Rigor. *George D. Shafer* ..... 115

The Reversible Heat Shortening of Elastic Connective Tissue, and an Examination of the Possible Effects of Certain Factors on the Heat Shortening of Connective Tissues. *George D. Shafer* ..... 125

Lactic Acid in Blood and Tissues Following Intravenous Injection of Sodium Bicarbonate. *John Haldi* ..... 134

Biological Differences in Response of the Female Macacus Monkey to Extracts of the Anterior Pituitary and of Human Pregnancy Urine. *Earl T. Engle* ..... 145

The Influence of Stretch on the Length of Survival of Isolated Muscles. *Paul Weiss* ..... 156

The Water of the Cerebrospinal Fluid. Variations of its Rate of Flow with Variation of Ventricular Pressure. *Louis B. Flexner*..... 170
On the Question of Threshold in Stimulation of the Motor Cortex. *E. P. Boynton and Marion Hines*..... 175
The Thebesian Vessels as a Source of Nourishment for the Myocardium. *Anne Bohning, Kenneth Jochim and Louis N. Katz*..... 183
A Note on the Rate of Circulation of Cerebrospinal Fluid. *Louis B. Flexner*..... 201
Comparison of Changes in Cardiac and Respiratory Rhythms Effected in the Dog by Changes in Physiological Conditions. *John Nyboer*..... 204
Heavy Metal Catalysis in Smooth Muscle Contracture. *Francis O. Schmitt and Paul A. Nicoll*..... 225
Comparative Studies of Gonad-Stimulating Hormones. III. Effects of Prolonged Injections in Immature Rats. *C. F. Fluhmann*..... 238
A Study of the Secretory Pressure of the Liver. *Nathan Brewer and Fred A. Ries*..... 247

No. 2. November, 1933

Reflex Activation of the Sympathetic System in the Spinal Cat. *Chandler M. Brooks*..... 251
The Interrelation of a Gonotropic Hormone and Vitamin A. *S. B. D. Aberle*..... 267
Some Atypical Responses of Rabbits to Insulin. *Isolde T. Zeckwer*..... 273
The Influence of Nervous Stimulation on Absorption from the Intestine. A Contribution to the Humoral Theory of Nervous Action. *Ernst Gellhorn and David Northup*..... 283
Physiological Effects of High Frequency Current. IV. An Estimate of the Energy Requirement of Pulmonary Hyperventilation. *E. S. Nasset and S. B. Peters*..... 291
Metabolic Studies in Partially Hypophysectomized Dogs. *Ray G. Daggs and A. G. Eaton*..... 299
Studies in the Normal Human White Blood Cell Picture. II. The Effect of Digestion on the White Blood Cells. *John S. Lawrence, D. J. Stephens and Edgar Jones*..... 309
The Excretion of Caesium by the Albino Mouse. *Clarence F. Graham and Arthur W. Wright*..... 314
The K-CA Antagonism in Regard to Absorption from the Intestine. *Ernst Gellhorn and Arthur Skupa*..... 318
Note on the Failure of Anterior Lobe Extract to Pass from Mother to Fetus in Rabbits and Cats. *LeRoy Goodman and George B. Wislocki*..... 323
An Analysis of the Factors Concerned in the Automatic Adjustment of the Ventricle to Increased Load. I. A Study of the Importance of Contraction Rate and Filling Pressure in Producing Alterations in Diastolic Volume by Variations in Arterial Pressure. *Leon F. Moldavsky and Maurice B. Visscher*..... 329
Lactic Acid Formation in Medullated Nerve. *Francis O. Schmitt and Carl F. Cori*..... 339
Studies on Fluorine in the Nutrition of the Rat. I. Its Influence upon Growth. *Alvin R. Lamb, Paul H. Phillips, E. B. Hart and G. Bohstedt*..... 350
Studies on Fluorine in the Nutrition of the Rat. II. Its Influence upon Reproduction. *Paul H. Phillips, Alvin R. Lamb, E. B. Hart and G. Bohstedt*..... 356

Temporal and Spatial Summation in Autonomic Systems. *A. Rosenblueth and D. McK. Rioch* ..... 365
Studies on the Regulation of Gastric Acidity. I. The Influence of Acid on the Secretion of Hydrochloric Acid by Fundic Pouches and by the Whole Stomach. *Charles M. Wilhelmj, Irwin Neigus and Frederick C. Hill* 381
The Progressive Degeneration of Frog Nerve. *G. H. Parker* ..... 398
Nerve Catalase. *Francis O. Schmitt and Royce K. Skow* ..... 404
The Output of Epinephrin from the Adrenal Glands During Anaphylactic Shock. *Milton B. Cohen, J. A. Rudolph, P. Wasserman and J. M. Rogoff* 414
Uterine Bleeding of Monkeys in Relation to Neural and Vascular Processes. II. Spinal-Cord Transection and the Oestrin-Level. *G. van Wagenen and S. Zuckerman* ..... 416
The Rôle of the Portal System in the Regulation of Circulating Blood Volume. *George M. Roberts and Lathan A. Crandall, Jr.* ..... 423
Carbohydrate Metabolism, Respiration and Circulation in Animals with Basal Metabolism Heightened by Dinitrophenol. *V. E. Hall, J. Field, 2nd., M. Sahyun, W. C. Cutting and M. L. Tainter* ..... 432
On the Mechanism of Erection. *V. E. Henderson and M. H. Roepke* ..... 441
Studies in the Nutritional Anemia of the Rat. IX. Observations on the Anemia of Pregnancy. *Howard H. Beard and Victor C. Myers* ..... 449
A Study of the Relation of Pancreatic Duct Pressure to the Rate of Blood Flow Through the Pancreas. *A. Lawrence Bennett and Eugene U. Still* ..... 454
Fiber Groups in the Optic Nerve. *G. H. Bishop* ..... 460
The Presence of Fibrinogen and Pseudoglobulin in Fibrin Digests. *Wm. H. Welker, Geo. Gilman and Ludwig Hektoen* ..... 475
Studies on the Physiology of Sleep. X. The Effect of Alcohol and Caffein on Motility and Body Temperature During Sleep. *F. J. Mullin, N. Kleitman and N. R. Cooperman* ..... 478
Simultaneous Study of the Constituents of the Sweat, Urine and Blood; also Gastric Acidity and Other Manifestations Resulting from Sweating. XI. Phosphorus and Sulphur. *G. A. Talbert, F. Stinchfield and H. Staff* ..... 488
Eye Reactions in Pancreatic Diabetes. *M. E. MacKay Sawyer* ..... 491

No. 3. December, 1933

The Effects Upon the pH of Dog Serum and Urine of the Alpha and Beta Fractions of Posterior Lobe Pituitary Extract. *A. R. McIntyre* ..... 505
A Study of the Metabolic Activity of the Pancreas. *Eugene U. Still, A. L. Bennett and V. B. Scott* ..... 509
A Comparison of the Characteristics of Axons Through Their Individual Electrical Responses. *E. A. Blair and Joseph Erlanger* ..... 524
The Configuration of Axon and "Simple" Nerve Action Potentials. *Joseph Erlanger and E. A. Blair* ..... 565
Factors Which Determine Renal Weight. XV. The Relation Between the Vitamin B (Old Terminology) and Protein Intakes. *Eaton M. MacKay* 571
The Nature of the Electrical Field Around the Heart. *J. A. E. Eyster, F. Maresh and M. R. Krasno* ..... 574
The Rôle of the Extremities in the Dissipation of Heat. *Walter G. Maddock and Frederick A. Coller* ..... 589
Studies on the Coronary Circulation. II. The Systolic and Diastolic Flow Through the Coronary Vessels. *C. J. Wiggers and F. S. Cotton* ..... 597

Disturbances of Reproduction and Ovarian Changes in the Guinea-pig in Relation to Vitamin C Deficiency. *M. M. Kramer, Mary T. Harman and Alice K. Brill* ..... 611
The Mammalian Vagus Nerve—A Functional and Histological Study. *Peter Heinbecker and James O'Leary* ..... 623
The Function of the Non-myelinated Fibers of the Dorsal Roots. *G. H. Bishop, Peter Heinbecker and J. L. O'Leary* ..... 647
Respiratory Metabolism of Active and Inactive Rats. *Edward A. Rundquist and Carroll J. Bellis* ..... 670
The Energy Metabolism of Phosphorus-deficient Dairy Cattle. *W. H. Riddell, J. S. Hughes and J. B. Fitch* ..... 676
Studies on the Origin of the Automaticity of the Intestine: the Action of Certain Drugs on Isolated Intestinal Transplants. *Charles B. Puestow* ..... 682
The Possible Mechanisms of Contracting and Paying the Oxygen Debt and the Rôle of Lactic Acid in Muscular Contraction. *R. Margaria, H. T. Edwards and D. B. Dill* ..... 689
Lactation in Diabetes. *I. L. Chaikoff and W. R. Lyons* ..... 716
Some Conditions Affecting Intensity and Duration Thresholds in Motor Nerve, with Reference to Chronaxie of Subordination. *E. F. Lambert, B. F. Skinner and A. Forbes* ..... 721
Hyperguanidinemia Associated with Dehydration in Normal and in Parathyroidectomized Dogs. *W. Ray Bryan, A. S. Minot and L. L. Chastain* ..... 738
The Rate of Oxygen Utilization by Rat Kidneys at Different Rates of Urea Excretion. *William Dock* ..... 745
Index ..... 751
